

Our Monroe County Planning and Zoning Board consist of five members that are appointed by the Commissioner of the district they reside in. The Planning and Zoning Board members have a term of one year running January 1st through December 31st. When zoning request come through for a public hearing the Planning and Zoning Board listen and evaluate the application and form a recommendation for each request. This recommendation is then sent to the public hearing that the Board of Commissioners will hold and make a final decision while taking into consideration their recommendation. This gives the request an open-minded, reasonable and equitable decision having both boards looking at each application.
